

Empower Women

"When women are the advisor, the Lords of creation don't take the advice till they have persuaded themselves that it is just what they intended to do; then they act upon it and if it succeeds, they give the weaker vessel half the credit of it; if fails, they generously give herself the whole"

Good morning to one and all present here.

Empowerment of women is the key-device to enable them resurrects their status multifariously in the society and reconciles them to share virilities of the fast developing world. This device is significant in view of the role that the women can more effectively play in all vital areas and a partnership is a must between men and women in all sphere of life.

Noteworthy is the fact, in between the present day scenario is the miserable plight of the women. They are being exploited socially and economically and are considered as a weaker gender. Once when we peep into the past we cannot forget that our history is the witness to the women power. Indira Gandhi, Sarojini Naidu, Sultana, Queen of Jhansi are the very many examples of the women power. God has gifted women with compassion, tender-heartedness, caring nature, concern for others. These are very positive signs which imply that women can be leaders. Though some women have shown their mettle yet a large number of them have to sharpen their leadership qualities in various ways. In order to help women to be in limelight, they need to be empowered. Therefore, empowerment of women is the prerequisite to transform a developing country into a developed country. Economic and educational developments are the key device for the empowerment of the women irrespective of the quality or the quantity given to the men or women. Updated with existing knowledge and relevant to current needs, women should be able to have access to well-paid formal sector jobs and advance with men. The economic empowerment of women is a vital element of strong economic growth in any country. Empowering women enhances their ability to influence changes and to create a better society.

Therefore, our efforts should be directed towards the all-around development of each and every section of Indian women, not confining the benefit to a particular section of women in society, by giving them their due share. It is a must to protect their chastity, modesty and dignity and ensure their dignified position in society. Last but not the least I would end up by saying that "Woman is a full circle; she has the power to create, nurture and transform. SO RESPECT THE WOMEN POWER.

Thank you
