**Accompanying Teachers :** Ms. Pooja Malhotra, Ms. Gunjan Arora

Adarsh Public School has always been instrumental in giving international exposure for the multifaceted growth of the students & enriching them with the cultural diversities of different countries, by taking them to various cultural & educational exchange programs to US, Mauritius, Nepal & France. The students have also participated in various Inter-School International Competitions, thereby enabling them to become globally sound.

The school added yet another feather in its cap by taking a group of 20 students & 3 teachers for an educational trip to the United States of America from 7<sup>th</sup> to 18<sup>th</sup> October 2013. The highlight of the journey was the visit to NASA, a division of the Kennedy Space Center where the students got a firsthand experience about shuttle launch, robotics & mission training. The icing on the cake was the view of the real shuttle ATLANTIS and the HUBBLE telescope which are landmark achievements in the history of mankind. Besides this the students got an opportunity to have lunch with an astronaut named Mark Lee who took us to a virtual tour of life in space. It's rightly said "Seeing is Believing".

The group had a hilarious time at Disney World & the Universal Studios. The breath taking roller coasters gave the 360 degree view of the world. The 3D Harry Potter ride was out of the world. The smiles on the faces of the children said it all.

The visit to the capital, Washington D.C. was altogether a different experience for the enthusiastic learners. Standing face to face with the most important building in the world, the White House, left the students spell bound. They also got a chance to see the Capital Hill, Lincon Memorial, Vietnam Memorial & many more places of strategic importance thereby learning about the history of the Americans.

There was still more to come. Yes! how could one complete the journey without visiting the hub of US; the NEW YORK. The hussle bussle of

the city was beyond imagination. The sight of Manhattan, Statue of Liberty & the Empire State Building & the Times Square were a treat to the eyes. It truly is a city which never sleeps.

The students finally left for the airport with everlasting beautiful impressions in their hearts and deep insight into various avenues of science & technology, culture, history etc. Thus the trip not only gave them international exposure but also made them sensitive towards the needs of others.
